Plan and program / FAQ

The adrenalin infused ZIPLINE polygon is located in the canyon of the River Cetina, 3 km from Omiš. It consists of eight (8) steel cables across which participants, sitting in a belt, descend down the canyon.

The total length of the cables is 2,100 m, the longest of which is 700 m and is 150 m above ground level. To cross the entire polygon accompanied by two guides, a group of 10 persons requires two and a half hours.

Transport to the starting point and back is organised with our vehicles. Before the start, there is a training session during which time each participant receives their equipment. There are 2 short cables, 25 m long, on which the guides demonstrate how to behave on the ZIPLINE. This is followed by a short stroll to the first cable through stunning scenery. At each cable, one of the guides demonstrates the descent while the second guide attaches the participants onto the cable and provides instructions.

The finishing point is 50m from the road where a vehicle waits to take participants back to the ZIPLINE agency in Omiš.

ZIPLINE tours take place all day throughout the summer season and by appointment during the remainder of the year.

ZIPLINE offers you 3 unforgettable hours (depending on the size of the group) of fun and stunning nature.
